You can see which community solar farm you are subscribed to here.

Your community solar credits appear under the "Usage Information" section of your electric bill.

Note that this is the amount of energy your allocation of the solar farm generated for the month, displayed as kilowatt-hours (kWh). Your solar kilowatt hour credits are deducted from the kilowatt hours that Potomac Edison bills you for.

You will receive an invoice from Neighborhood Sun for those solar credits, but your discount will be applied, saving you money on your electricity costs.
